

SENIOR MOMENTS

- The Lansdowne Seniors will not meet in the month of December. If interest is positive, they will see you on Wednesdays in January of 2023 beginning January 4. Marilyn and Richard wish you all a safe and blessed Christmas season. New senior members are always welcome.
- Seeley's Bay Seniors are gathering on December 14 at The Junction Restaurant in Seeley's Bay on Highway 15 for a potluck at noon. For details, call 613-387-3750.
- Interested in learning to sew? Wanting to learn new techniques and skills? Maybe you want some support to complete a sewing project. The Township is hoping to host sewing classes in early 2023. This is a call for interest! If you would like to participate in a class, please contact us at businessadmin@townshipleeds.on.ca or 613-659-2415 ext. 246.
- Women Matters (Rug Hookers) | Join an enthusiastic group and learn the art of matting and hooking at the Lansdowne Community Hall every Monday from 10:00 a.m. to 3:00 p.m. Drop-in rate is \$3.00/week and program runs until May 26. To register, call 613-659-4198 or email womenmattersrugart@gmail.com.

DID YOU KNOW...

- A walk-by window exhibit, "Guess Who's Coming to Dinner?" will be on display at the 1000 Islands History Museum from December to March!
- The St. Lawrence District Medical Centre Board and staff wish to acknowledge the many years of dedication to the community of the Lansdowne Women's' Institute Chapter. Most specifically, for the support they provided during the campaign to raise funds for the Medical Centre expansion. As a group, they have made numerous financial contributions to the Centre. Further to that, either under the local Institute umbrella or individually, several of these ladies were involved in the production of the fundraising cookbook; provided baked goods and other offerings to our silent auctions; worked behind the scenes and in the kitchen for fundraising events. Heather Cross, Board Chair, had the privilege of meeting with several of these ladies on October 27, as a final gesture of support before officially disbanding the local Institute chapter, they presented the Centre with one last and generous financial contribution. The Board is forever in their debt and wish each of them the very best.
- Thank you to all vendors and public for supporting the LTI Historical Society Craft Sale fundraiser on October 29, 2022. The LTIHS look forward to gathering together again at their next presentation in 2023. Please visit www.ltihistoricalsociety.org for more information and to view LTIHS newsletters.

2023 Budget

The 2023 capital and operating budgets will be presented to Council at a Special Council meeting on December 15, 2022. Staff have been working on the 2023 budget since the summer. Consideration has been given to strategic priorities and maintaining or enhancing service levels. Staff have attempted to mitigate budget increases due to inflation, rising insurance costs and general operating cost increases.

The revenue needed to be raised through property taxes is determined through the operating budget process. The total budget, less other revenues received (user charges, government grants, draws from reserve funds etc.) equals the net levy requirement – the amount needed from property tax revenue to balance the operating budget. The property tax rate is set at the rate required to raise the revenue needed based on the property assessment values of the properties in the Township. (property tax rate X property assessment = property tax revenue)

The capital budget is based on the Township's asset management program. Staff have developed a comprehensive asset management system which includes all Township owned assets, and condition and risk data. The system provides the estimated asset replacement dates and replacement costs. This information forms the basis of the capital budget. Staff will also be presenting a financial plan which outlines strategies with respect to funding capital investment requirements over the next several years.

The budget process is a complex process of balancing increasing demands for municipal service levels, ensuring adequate investment in capital infrastructure while also mitigating increases to the property tax rate.
