October to December 2025

Seeley's Bay Hall Visioning Project

The Seeley's Bay Fire Hall / Community Hall, at 151 Main Street in the Village of Seeley's Bay, has dutifully served the Township since its establishment in 1950.

Initially constructed through community fundraising efforts, the fire hall began as a single-bay facility. Over the years, it has undergone multiple expansions, including the addition of a community hall on the second level.

With the recent move of the fire department to a new facility, the Township has retained IDEA Inc. to act as the Primary Consultant to lead a visioning process for the adaptive reuse of the facility.

A Public Information Centre (PIC) is being held to introduce the Adaptive Re-Use project, and to obtain public and stakeholders' feedback on the information presented. The project team representatives will be available to answer questions and discuss next steps.

Public Information Centre Details

- Date: Thursday, October 9, 2025
- Time: 6:00 p.m. to 8:00 p.m.
- Location: Seeley's Bay Community Hall, 151 Main Street, Seeley's Bay, ON

2026 Municipal Election

Did you know that the 2026 Municipal Election is only a year away?

To ensure you are on the voting list, visit RegisterToVoteON.ca or call 1-866-242-3025. You can confirm your voter information, update your details and add your name to the Register if it is missing.

Website Refresh

We're excited to share that our Township website has been refreshed to make it easier to use on tablets and cell phones. With this update, you will notice some changes in how information is organized. If you previously bookmarked or relied on an old website link, it may no longer work.

To make navigation easier, we've added icons and image pods on the homepage to help guide you quickly to the most popular sections. We hope these improvements make it simpler for everyone to find the information they need.

Subscribe to the e-news feature, which sends out Township news notices to your email, at <https://www.leeds1000islands.ca/subscribe/>

Planning and Development

Questions about Building Permits.....

Building permits are required for all the following structures/construction.

- Accessory buildings over 10 sq m (108 sq ft), sheds, greenhouses and gazebos
- Accessory buildings, used for storage only on residential properties over 15 sq m, or 161 sq ft.
- All decks, attached to structures, regardless of size or height above grade.
- Detached decks over 10 sq m, 108 sq ft.
- Bunkies over 10 sq m, 108 sq ft. in size. Bunkies are considered bedrooms and require a septic review regardless of size.
- Access stairs to structure or properties (i.e. from the water to a cottage/house)
- In-ground and above-ground pools, hot tubs and swim spas.

All structures, whether they require a building permit or not, are required to comply with the Township Zoning By-law and obtain CRCA permits if they are to be located in an area regulated by the Conservation Authority.

As fall approaches, please note that adding insulation to the exterior or interior of your residence, or installing a solid fuel appliance (such as a woodstove), requires a building permit.

We would like to thank all the residents, contractors, and authorized agents who have obtained building permits for their current projects. We look forward to working with you through project completion and future projects.

Permit Application & Information Packages

There are several project specific Permit Application & Information Packages available to assist in applying for permits. The [Permit Application & Information Packages](#) are available on the Building Permits and Application page of the Township website and at the office. For other construction projects, please select the most appropriate package or contact the office with questions.

Complete Applications

When submitting an application for a building permit, it is important to ensure that your permit application is complete and that the information is sufficiently detailed to enable the design to be assessed for compliance with the Building Code. A detailed plot plan is required to ensure zoning compliance. Incomplete applications will result in delays in the review of applications. To assist in the completion of applications please refer to the [Guide to Building Permit Applications](#) on the Building Permits and Application page of the Township website.

Building Permit Renewals

A reminder to check the expiry date on your building permits. Permits have a one year expiry date, but can be renewed. The renewal request form is available at [Building Permit Application Renewal - Leeds and the Thousand Islands](#) on the Building Permits and Application page of the Township website.

Civic Addressing

All developed properties are required to have a civic blade and post installed at their driveway to assist emergency services with locating your property. The Township can issue civic addresses to vacant land and recommends a civic address for any property being farmed or with a recreational type use. An approved entrance permit from the applicable road authority is required prior to the issuance of a civic address.

Please be proactive and check the blade and post for your property to ensure that it is not damaged and that you can clearly see it from both directions of the road or water. Remember, if you cannot see the blade, then others will not be able to see it either.

If you have not been issued a blade and post, or your blade or post has gone missing or is damaged, please contact the Planning Technician at planningtechnician@townshipleeds.on.ca or 613-659-2415 ext. 203. The fee for a blade is \$25, and the fee for the post is \$20.

By-law Enforcement

• How to Submit a Complaint

- Complaints can be submitted to the Township through the website, [Ask a Question Report a Concern](#) on the Township website, which is monitored Monday to Friday from 9:00 am to 4:30 pm.
- **Outside of Township Business Hours**
 - The Township contracts Frontenac Municipal Law Enforcement to provide By-law enforcement services outside of regular Township business hours. Please contact Frontenac Municipal Law Enforcement at 613-541-3213. This is an answering service only. Please leave specific details, including:
 1. Your name;
 2. The address of the property of concern; and
 3. Phone number of where you can be reached.
 - Once a complaint is received, Frontenac Municipal Law Enforcement or a staff member may reach out to the complainant if there are any questions or further clarification required.

Dog Tags

All dog owners in the Township are required to purchase a dog tag annually. You can purchase a dog tag, using cash, cheque or debit, at the Township office Monday to Friday from 9 a.m. to 4:30 p.m., or through the [Ask a Question/Report a Concern](#) on the Township website.

Fire Services

Fire Prevention Week | October 5 - 11, 2025

Fire Prevention Week is the ideal time to ensure your home is protected. Working smoke alarms and carbon monoxide (CO) alarms are required by law and provide life-saving early warning in the event of a fire or CO emergency.

Smoke alarm safety tips:

- You need at least one smoke alarm on every level of your home and outside sleeping areas.
- You must have a carbon monoxide alarm if you have fuel burning appliances in your home or an attached garage.
- Don't forget to test them monthly
- Replace batteries every 6 months
- Replace the alarms after 10 years

Township firefighters will be out in the community as part of Fire Prevention Week, reminding residents to check that alarms are installed, up to date, and in good working order. You can also book a free Fire and Life Safety Inspection by contacting our Fire Prevention Team at the Township Office by calling 613-659-2415 ext. 219 or emailing fireprevention@townshipleeds.on.ca. Keep up to date by following our social media channel, <https://www.facebook.com/Leeds1000IslandsFireServices> or find information on the "[Fire Service](#)" page on the Township website.

A quick inspection today could save a life tomorrow.

Burn Permits | Renew Today

As we head into the fall of 2025, don't forget to renew your Burn Permit! Burn permits expire at the end of each calendar year and need to be renewed after January 1st of each year. Residents of the Township of Leeds and the Thousand Islands (TLTI) are required to have a permit for all open-air burning—and the good news is, permits are free for all TLTI residents.

To apply for or renew your permit, visit <https://lti.burnpermits.com/> or stop by or call the Township office during business hours. Once your permit is active, you must call 613-704-1812 on the day you wish to burn to activate it for 24 hours and to hear the latest burn level conditions.

Using this system keeps you compliant with the by-law and helps our fire fighters stage and manage resources more effectively, ensuring a safer community for everyone.

What3words | A Simple Tool for Emergencies

Have you ever found yourself lost and struggled to give directions? The What3Words app can help!

This free app divides the world into 3m x 3m squares and assigns each one a unique three-word combination. If you're ever in an emergency, open the app and provide the three-word location to emergency responders.

By using What3Words, you can ensure that help finds you quickly, no matter where you are.

Download the app today: Visit www.what3words.com to learn more.

Fall Fire Safety | Clean your Chimney and Heating Appliances

As the colder months approach, many of us turn to fireplaces, woodstoves, and furnaces to keep our homes warm and comfortable. Before lighting that first fire of the season, it's essential to make sure your chimney and heating appliances are safe to use.

Why cleaning matters: Over time, smoke from wood-burning appliances leaves behind a substance called creosote. This sticky, highly flammable material can build up inside your chimney or flue. Even a small spark can ignite creosote, leading to a dangerous chimney fire that can spread rapidly through your home. Regular cleaning and inspection greatly reduce this risk.

What you should do: Schedule a professional inspection and cleaning of your chimney and flue every year. Certified chimney sweeps possess the necessary tools and expertise to identify issues that may be overlooked.

- Check your heating appliances—woodstoves, fireplaces, and furnaces—for cracks, loose fittings, or worn parts. Proper maintenance ensures safe and efficient operation.
- Practice safe ash disposal. Always place ashes in a metal container with a tight-fitting lid, and store it outside—well away from decks, garages, or anything that can burn.
- Test your smoke and carbon monoxide alarms. Heating appliances can produce deadly CO gas if not vented properly. Alarms provide your first line of defence.

The benefits: Taking these steps not only reduces your risk of fire but also helps your heating system run more efficiently—saving energy, money, and worry. A clean chimney and a well-maintained heating appliance mean peace of mind for you and safety for your family all winter long.

Local Happenings
